The Professional E-mail plan

E-mail Created on **August 16, 2026** Updated on **October 4, 2026** 2 min read

A Professional E-mail plan gives you mailboxes on your own domain - *you@yourcompany.co.mz* - without paying for website hosting you don't need.

What each plan includes

1. **E-mail Pro** - 10 GB of storage, up to 10 mailboxes, 100 messages per hour.
2. **E-mail Plus** - 30 GB, up to 30 mailboxes, 300 messages per hour.
3. **E-mail Ultra** - 50 GB, unlimited mailboxes, 500 messages per hour.

All of them include antivirus and spam filtering, unlimited traffic, and webmail access.

Getting started

1. Point your domain to us - see **how to configure a domain's DNS**. Without this, mail doesn't arrive.
2. Create your mailboxes in cPanel - see **how to create an e-mail account**.
3. Read your mail in **webmail** or set it up on your phone and computer - the **setup guides** cover each app.

What the hourly limit means

The limit on messages per hour is there to stop a compromised mailbox from being used to send spam - which would get the whole server blocklisted. Normal use never comes close. If you send newsletters to large lists, use a dedicated mailing service rather than a mailbox: it's what they're built for, and delivery is better.

Already have hosting with us?

Then you already have mailboxes included - this plan is for whoever wants professional e-mail **without** a website. Ask us before buying both.

NEED A HAND?

Not sure which plan fits your team? Tell us how many people.
