What the Reseller Program is

Reselling & WHMCS Created on **November 26, 2026** 2 min read

In short: the Reseller Program is for people who sell internet services to their own clients. You buy from Interweb at a discount, pay from your account credit and charge your clients whatever you like. The difference is yours. The **Reseller Program** page has the whole picture.

How it works

There are three plans: **Agence Pro**, **Agence Plus** and **Agence Ultra**, with **10%, 15% and 20%** off. There is no monthly fee. To join, you make one credit deposit worth the Agence you pick, and all of that money stays in your account for your orders. Our team reviews every application and approves it by hand.

What you can resell

Area	What is included	Where to look
Domains	.co.mz and other extensions, registered from credit.	**Domain reseller**
Hosting	Web hosting, Business and Reseller plans, with cPanel or Plesk.	**Hosting reseller**
Servers	VPS, Cloud and dedicated servers.	**Server reseller**
Online radio	Streaming servers for radio stations, with AutoDJ.	**Online radio reseller**
Artificial intelligence	All in One AI plans.	**AI reseller**

Who bills whom

Your clients pay you, at the price you agree with them. Interweb bills only you, with your Agence discount, and does not discuss prices with your clients. Every order is paid from credit, and the final price always shows on the invoice.

Who it is for

People who already have clients and want to add domains, hosting and servers to what they sell, without building the infrastructure themselves. An agency or web designer can hand over the site with its domain and hosting. A software company can plug its system into the API and register domains automatically. An IT company can add servers, e-mail and domains to its existing support contracts.

What you get once approved

You get a reseller page in Meu Interweb. It has the margin calculator, a PDF price list for your clients, monthly statistics (what you bought, what you saved and what is coming due), your credit with a low credit alert, and the list of services associated with each client. You can also order through the API, paid from credit, at your Agence price.

It is not the same thing as Reseller Hosting.

Reseller Hosting is a plan, with 10, 30 or 60 accounts for your clients' sites. The Reseller Program is a discount on everything you buy. You can have both and buy Reseller Hosting with your Agence discount. If you are still deciding how to organise your clients, see **reseller hosting or one plan per client**.

RECOMMENDED

The three Agence plans, the deposit for each one in your currency and the button to apply are on the program page.
